High Gloss **Label Rolls**

Our glossy white label rolls are made from a medium thickness sheet that allows for easy feeding through both laser and inkjet printers. The sheets are topcoated specifically for use with inkjet label printers so that your inks instantly bond with the sheet, creating a smear-proof finish.

High gloss labels are paper-based labels with a smooth, shiny and bright white surface. The general purpose, permanent adhesive adheres beautifully to cardboard, metals and most plastics. LabelBasic glossy paper labels are highly water and abrasion resistant. They reflect light and help colors pop. Gloss labels are popular for their polished and professional appearance.

Matte
Label Rolls

LabelBasic Matte labels are paper-based labels with a smooth, white matte surface. The general purpose, permanent adhesive adheres beautifully to cardboard, metals and most plastics. These LabelBasic matte paper labels are highly water and abrasion resistant. Matte labels are popular because of their versatility. They can be luxurious or natural looking depending on the design, use, and placement.

Glossy Polypropylene **Label Rolls**

Our Gloss Polypropylene labels are plastic based and have a smooth high gloss surface. A special inkjet receptive coating locks in ink allowing exceptional print quality.

These are excellent for a wide variety of products and conform to the shape they are placed on. This makes them perfect for applications with curved surfaces. These labels are some of our most highly water and abrasion resistant labels.

Matte Polypropylene **Label Rolls**

Our Matte Polypropylene Inkjet label rolls offer water, oil, flex-crack, and puncture resistance. In addition, these labels won't shrink or wrinkle with changes to the environment and they result in crisp, clear text and images.

Our **Matte Polypropylene Label** gives your designs a more subdued look with little glare. The satin-like surface offers a high quality feel premium brands love.

Chemical BS5609
Label Rolls

Businesses need to meet the GHSBS5609 certification to ensure that any chemical or drum labels are able to last in unforgiving environments, particularly those that are submerged underwater for extended periods of time. Under GHSBS5609 certification, labels must be able to withstand a three-month saltwater submersion.

These GHS BS5609-certified labels are proven meet the most stringent tests for durability in the industry, and are described as an extremely durable label suitable use in harsh environmental conditions.
